| • Docker | • AJAX | • GraphQL |

Professional Experience

07-2021 – present
India

Software Engineer, TVZ CORP

- Designed and developed a task management application with notification, messaging and scheduling features that lets users schedule task, assign them, specify deadlines and communicate with other users concerning various tasks.
- Developed a sports website with forum and prediction features that lets users read the latest sports news, see upcoming events, follow their favorite clubs, players and also interact with one another.
- Built REST APIs for user comments for an E-gaming application that allows only whitelisted IPs access to the various endpoints. The database used for this project was MongoDB.

07-2020 – 12-2021 Nigeria	<p>Software developer, EDUTAMS</p> <ul style="list-style-type: none"> Engineered the "core" of TAMS Basic (a school management solution for basic schools), which improved the product's onboarding process by 90% and requires little or no technical expertise for onboarding. Designed and developed a number of modules including the "E-Assessment" service, which allowed post-graduate students at Tai Solarin University of Education and other international secondary schools to take their exams online during the COVID-19 lockdown. Designed and presented the analytics page that lets administrators know the number of students, staff, parents, daily, monthly and yearly income, expected income. (i used graphs and various others analytics tools). I also had the opportunity to work with the Ogun state government in building online dossiers for public basic schools in Ogun State, Nigeria. This application has over 500,000 users and counting.
2018 – 2020 Nigeria	<p>Software Engineer, Lionheart software house</p> <p>I built school, inventory and sales applications along with my team that automates various processes in those fields.</p>
2017 – 2018 Nigeria	<p>Intern, Khemsafe computers</p> <p>I worked as an intern at their software department. I gained a lot of industry experience at khemsafe.</p>
2015 – 2017 Nigeria	<p>Graphics designer, Lily colour lab</p> <p>I worked as a graphics designer without the Adobe Photoshop and Corel draw framework. I majored in photo editing.</p>

Education

2014 – 2019 Lokoja, Nigeria	Federal University lokoja, B.Sc Computer Science
2006 – 2012 Kaduna, Nigeria	Christ Ambassadors College, O Level
2006 Kaduna, Nigeria	Ideal international School, Primary education

Projects

Save2Invest, <https://lifecardcompany.com/>

Engineering, developing and designing the features of this application that enables users to save money and invest in buying a house or paying their mortgage. Interest is accrued based on the savings plan selected and duration of investment.

Adept lessor limited, app.adeptlessor.com

The adept lessor application is a loan application that allows companies and individuals request for loans. It also helps to manage loans and has an integrated payment gateway that enables quick loan repayment.

Salon recommender system, <https://github.com/repzlaw>

Allows salon owners around the world register their salons on the platform where users can book appointments and recommend salons the improve the system.

Molly Distinct Consult, www.procheck.mollydistinctconsult.com

Designed and developed a quiz/test application for a recruitment company that will help in assessing the various applicants to see how fit they are for various position they applied for.
